Abstract

This data set contains information regarding public water systems in the state of Iowa. This data is needed to calculate measures of contaminants and determine water quality. This data set includes community water systems.

Purpose

This data is used to calculate measures of contaminants in drinking water for arsenic, nitrates, disinfection byproducts, atrazine, di(2-ethylhexyl) phthalate, radium, tetrachloroethylene, trichloroethylene, and uranium for display on the Iowa Public Health Tracking Portal, consistent with the guidance for creating Nationally Consistent Data and Measures (NCDMs).

Use Constraints

Use of this data is restricted for statistical reporting and analysis only. Do not attempt to learn the identity of any person included in the data, and do not combine this data with other data for the purpose of matching records to identify individuals. Do not disclose or make use of the identity of any person or establishment discovered inadvertently and report the discovery to the Iowa Department of Public Health through the contact information provided below. These data cannot be used for commercial purposes. Do not imply or state, either in written or oral form, that interpretations based on the data are those of the original data sources, the Iowa Department of Public Health, or the Centers for Disease Control and Prevention unless the data user and data sources are formally collaborating and have received written permission to do so. Acknowledge, in all reports or presentations based on these data, the original source of the data, the Iowa Department of Public Health, the Centers for Disease Control and Prevention, and the Iowa Department of Natural Resources.

Additional Information

Data

By definition, this dataset does not include unregulated drinking water providers, namely private drinking water wells or very small systems or mutuals in which there are less than 15 retail connections and less than 25 year-round residents.

Lineage

Latest year of data imported and appended to previous years data.

Date: 20180327

Data Overview

This file/dataset contains operational and geographic information on Public Water Systems and Community Water Supplies within the state of Iowa.
